

Environmental Statement

Synseal Extrusions Limited incorporating Global Glass has a prime objective of reducing, as far as possible, the impact of its business operations on the environment.

To support this objective, Synseal Extrusions Limited incorporating Global Glass have developed a comprehensive Environmental Policy which provides a framework for our Environmental Management System

Environmental Policy

- Synseal Extrusions Limited are committed to meeting all current and future UK environmental legislation and any other related requirements.
- To set targets and objectives and review these regularly to demonstrate our commitment to continual environmental performance improvement.
- To purchase, where practicable, environmentally superior products and services from supply chain partners who have demonstrated a commitment to good environmental practices.
- Committed to pollution prevention from the companies activities.
- Through our recycling operations we are committed to reducing waste to landfill at the earliest opportunity to reduce the impact on the environment.
- Synseal Extrusions Limited commits to provide its workforce with relevant education and training necessary to comply with company policy and best practice.
- Synseal Extrusions Limited's commitment to sustainability lies in our awareness of our impact on the environment. We understand that we are part of a global community that reaches far beyond the neighbourhood in which we operate. Therefore, we are committed to protecting our world's natural resources by using them wisely.
- Synseal Extrusions Limited are working with the industry towards achieving the voluntary schedule for VinylPlus for the replacement of lead stabiliser in its products within the given timescale.
- This policy is available to the public via the company's website.
